ABOUT ISMT

International School of Management and Technology (ISMT) offers internationally recognized British Degrees for those who seek a most affordable route to get internationally recognized qualifications. The courses are delivered through BTEC HND for the first two years leading to the third or final year of BIT & BHM. Indeed, ISMT is committed to delivering internationally recognized quality education in Nepal adopting core local requirements and values.

Our ultimate aim of education is to develop the abilities in students to produce the results they desire most and create values for the society. Our innovative learners centered teaching approach helps students develop the skills and aptitudes to change their life, shape their perception, think out of the box, manage problems and make things work one way or the other.

Moreover, ISMT endeavors to reveal the three most desirable qualities that modern corporations are seeking in university graduates-communication skill, interpersonal skill and initiatives. Thus, ISMT, distinctly, aims to engage all students with these key professional concerns by providing them with the learning opportunities and extensive resources.

If you have big dreams, want to enhance your career in this highly competitive world, are highly driven, want to complete graduate from Australia, USA, UK, Canada or from any other first world countries then ISMT can definitely help you accomplish your aims. Thus, you are cordially invited to explore ISMT's academic programmes and its enriching learning environment, and to discuss your needs with its dedicated team.

VISION

A globally respected academic institute that endorses noble professional practices in Nepal and in South Asia by creating new frontiers and developing "ethical", dependable, entrepreneurial, and socially sensitive leader-managers, educators, and IT professionals committed to producing excellence results.

MISSION

To create a sustainable education base through the pursuit of learning, and developing professionalism that will create a competitive edge to perform at a Global Level.

WHY TO STUDY BTEC HND Leading to BIT & BHM @ ISMT

The changed world of the 21st century has a dire need for market and industry focused education. Today the employers can choose employees from across the world, it is clear that the future competitiveness of students depends on the quality of education they receive.

Considering these realities, ISMT is providing internationally recognized BTEC HND programmes leading to Bachelor's degrees. The same courses are taught in Colleges and Universities in UK and in other 173 countries. It is proven that these qualifications raise the knowledge, skills and attitudes of its graduates so that they stand at the front line in the competitive market.

A **BTEC Higher National Diploma (HND)** is a further education qualification of the United Kingdom. Pearson Edexcel describes BTEC HND as a professional qualification having academic recognition by more than thousand universities worldwide. This qualification is considered equivalent to the second year of a three-year university degree course.

Thus, students who have achieved a HND can complete their Bachelor's degree by enrolling directly to the third in a University. Actually, students have plenty options a head them. They can complete their final year from Nepal or can have their credit transferred to one of thousand Universities in Australia, USA, UK, Canada, New Zealand or many more. This means a student who is studying first year of bachelor's degree at ISMT can be a student for the third year at MIT USA, Oxford University, UK for example.

Further, there are several visible reasons to study @ ISMT college

- ISMT is developing a placement cell that will help its graduates for placement. They will be equipped with Knowledge, skills and attitudes that the corporate are looking for. For example there are many students currently taking their internship experience working in big hotels in China. Students from IT faculties are involved in different IT related companies.

- The college has in its resource pool of (overseas) lecturers, entrepreneurs, professionals and visiting professors who bring with them a wealth of experience backed up with academic excellence.
- The college provides all the resources' such as libraries E-library, computer labs and sport facilities.
- Most importantly, the faculty members are also selected from highly qualified subject experts, gifted lecturers with an invaluable fusion of teaching practice and current professional experience in relevant subject areas.

By default, we are conscious of the demands and the challenges that the global market is placing on graduates, and we are committed to responding to these challenges by delivering cost-effective, relevant and internationally recognized academic programmes. Certainly, receiving a qualification from ISMT offers fantastic opportunities in the growing and exciting corporate world.

COLLEGE FACILITIES

- The college is centrally located and easily accessible from any corner of the Kathmandu valley.
- The classrooms are air-conditioned and equipped with comfortable furniture, digital projectors, and interactive smart boards.
- The college has a sport ground and parking space for more than three hundred students.
- The college contains of well equipped IT Labs, Students Lounge, a canteen having capacity of accommodating about hundred students at a time, and a well managed library and resource center.
- The College endeavors to extend as much support as possible to our students such as we provide additional tutorial support, revision sessions and repeated classes on request
- We also provide Soft skills trainings and mentoring for the overall development of our graduates
- Wireless access throughout the college premises

ENTRY REQUIREMENTS

- Complete higher secondary (10+2)/ A level or equivalent
- A good command in English Language

BTEC HND IN COMPUTING

Leading to BIT
